

A DECLARATION OF JOINT WORKING

BETWEEN

AstraZeneca UK Ltd

And

Dorset CCG

Dorset CCG and AstraZeneca UK Ltd are engaged in a joint working project titled 'Mobilising a digital solution for patients with a long-term condition to improve outcomes'. AstraZeneca and Dorset CCG will collaborate to implement a digital platform, provided by my mhealth, to support their patients with a long-term health condition.

The project will run from 22nd June 2020 to 21st June 2021 and both parties have contributed resources to this initiative.

The aims of the joint working project are;

Enrolment, engagement & retention

- To enrol 5,000 appropriately targeted patients on the my mhealth platform
- To increase the adoption rate from 43% to patients offered the apps
- To retain patients on the platform beyond the initial 3-month period

Data will be collated both from the app and NHS data to monitor patient outcomes.

The expected patient benefits include

- Patients to be more confident about using a digital application to support their disease management
- Improved management of patient's condition through access to education modules, self- management plans, symptom scores and disease progression
- An increase in uptake of virtual rehabilitation, both Pulmonary and Cardiac
- More appropriate and reduced use of healthcare resources
