

**DECLARATION OF JOINT WORKING BETWEEN ST BARTHOLOMEW'S HOSPITAL AND
ASTRAZENECA UK LTD**

St Bartholomew's Hospital and AstraZeneca UK Ltd are engaged in a Joint Working Project entitled "East London Community Pharmacy Identification and Medicines Optimisation Project".

The aims and objectives of the project are to;

- Improve outcomes for patients with Type 2 Diabetes Mellitus at risk of developing cardiovascular complications or with established cardiovascular disease.
- Reduce cardiorenal complications for patients with Type 2 Diabetes Mellitus.
- Upskill community pharmacists to be able to identify and deliver improved care to patients through medicines optimisation.
- Reduce pressure on GP services.
- Provide audit data to support pathway development.
- Improve patient experience.

The project will run from December 2020 to December 2021. Both parties have contributed resources to the initiative.
