

**A DECLARATION OF JOINT WORKING BETWEEN ST GEORGE'S UNIVERSITY HOSPITALS NHS
FOUNDATION TRUST AND ASTRAZENCA UK LTD**

St George's University Hospitals NHS Foundation Trust and AstraZeneca UK Ltd are engaged in a Joint Working Project entitled " The Cardio-Metabolic Joint Clinic and Education Project".

The aims and objectives of the project are;

- To improve long term cardiovascular outcomes for patients with heart failure and diabetes.
- To create Cardiac-Metabolic joint outpatient consultant-led clinics for heart failure & diabetic patients.
- To develop an educational programme for primary care to establish early awareness and diagnosis of heart failure in patients with diabetes.
- To develop an educational programme for secondary care to improve the management of patients with heart failure and diabetes.
- To improve pathways across primary and secondary care for the management of patients with heart failure and diabetes.
- To improve patient experience.

The project will run from August 2020 to August 2022. Both parties have contributed resources to the initiative.
