

A DECLARATION OF JOINT WORKING
BETWEEN
NHS North West Surrey Clinical Commissioning Group
AND
AstraZeneca UK Limited

NHS North West Surrey Clinical Commissioning Group and AstraZeneca are engaged in a Joint Working project in diabetes to improve quality of life for patients with Diabetes across North West Surrey CCG.

This project will run from February 2014 to May 2015 and both parties have contributed resources for this initiative.

This Joint Working project aims to provide patient-centred care through the education and mentorship of practice staff and review of patients as per NICE guidelines. This will enable patients with poor control of their diabetes to optimise their management, thereby reducing the need for unscheduled admissions into hospital.
