

Executive summary outputs of

Published on <https://www.astrazeneca.co.uk/partnerships/working-with-nhs>

Project title	COPE Implementation Project	
Duration	11 months (from 2/2/25 to 31/12/25)	
Project partners	Hywel Dda University Health Board (with practices recruited in Cwm Taf Morganwg and Aneurin Bevan University Health Boards) and AstraZeneca UK Ltd	
What was the issue to be addressed?	To standardize the review of COPD patients in Primary Care and optimize treatment in line with All Wales COPD Guidelines by proving that a COPD template is timely and effective at improving the quality of reviews.	
What were the results?	% of patients whose diagnosis was confirmed n=572	91%
	% of patients who had their medication optimised n=298	52%
	% of patients who had a pulmonary rehabilitation referral n=43	8%
	% of patients who declined a pulmonary rehabilitation referral n=119	21%
	% of patients who had a smoking cessation referral n=21	9%
	% of patients who declined a smoking cessation referral n=53	23%
	% of patients who received a flu, pneumonia or Covid vaccination n=321	56%
	% increase of COPD patients with an available Q Risk score that was elevated n=5	55%
